Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Serves tea and snacks to customers at the counter. - Tries to remember regular customers by face and name.	- Opens the CRM app on phone or laptop at the counter. - Creates new customer profiles (name, phone, favorite item).	- Quickly selects regular customers from the list during billing. - Checks daily sales summary (total cups, revenue, top customers).
Touchpoint <i>What part of the service do they interact with?</i>	- Paper register / notebook - Memory / mental notes - Cash counter area	- CRM login screen - "Add Customer" form - Billing/order entry screen	- Daily sales dashboard - Customer list with visit count / points - Loyalty rewards screen
Customer Thought <i>What is the customer thinking?</i>	- "I might be losing regular customers because I can't track them properly." - "I don't have time to maintain detailed records during rush hours."	- "Is this going to be complicated to use?" - "If I can quickly add customers while serving, this might work." - "Will this really help me see who my top customers are?"	- Now I can see who my regular customers are." - "I can plan offers and manage my shop better." - "This is simpler than I thought; it saves me time."
Customer Feeling <i>What is the customer feeling?</i>	- Stressed - Overwhelmed - Worried about losing business	- Cautiously optimistic - Slightly nervous (about learning something new) - Hopeful that it will simplify things	- Confident - Relieved - More in control of the business - Satisfied with the tool

Process Ownership <i>Who is in the lead on this?</i>	*Chai shop owner* – manages everything manually (memory, notebook, cash counting).	*Chai shop owner + our project team* – owner uses the app; our team supports setup, training, and fixes.	Chai shop owner* – independently uses the CRM daily; your team may provide occasional updates/support.
Opportunities <i>How can we improve this stage?</i>	Introduce simple digital CRM; educate on benefits; capture exact pain points.	Simplify UI; give short training; add in-app help; start with core features; collect early feedback	Add summary reports; enable simple promotions; plan future modules (inventory, messaging); periodic feedback
