Project Title	A CRM APPLication for the Chai Shop & Co
Maximum Marks	5 Marks

Project Proposal (Proposed Solution) report

The proposal report aims to transform loan approval using machine learning, boosting efficiency and accuracy. It tackles system inefficiencies, promising better operations, reduced risks, and happier customers. Key features include a machine learning-based credit model and real-time decision-making.

Project Overview	
Objective	The primary objective is to implement Salesforce CRM for Chai Shop & Co to manage customers, orders, and inventory in one centralized platform and automate the daily operations.
Scope	The project covers Customer Management, Order Management, Inventory Management, Billing, Feedback Management and Sales Analytics using Salesforce Sales Cloud, Custom Objects, LWC, Apex and Flows
Problem Statement	
Description	The current chai shop runs on manual registers and notebooks leading to errors in order taking, no customer history, no stock alert for milk/sugar/snacks, and no proper sales report. This affects efficiency and customer satisfaction.
Impact	Solving this will result in faster order processing, reduced inventory wastage, proper customer data for loyalty offers, and real-time sales dashboards, which will improve business growth and customer retention.
Proposed Solution	
Approach	Building a custom Salesforce application for Chai Shop & Co using Custom Objects (Chai_Orderc, Inventoryc), LWC components for ordering screen, Apex triggers for stock calculation, and Flows for auto order confirmation and low-stock alerts.
Key Features	Custom Objects for Orders, Customers, Inventory LWC based Quick Order Component for counter Flow automation for order status & low-stock alert

	Reports & Dashboards for daily sales and top-selling chain Customer loyalty and feedback tracking

Resource Requirements

Resource Type	Description	Specification/Allocation
Hardware		
Computing Resources	CPU/GPU specifications, number of cores	Intel i5 or above, Stable internet connection
Memory	RAM specifications	8 GB RAM
Storage	Disk space for data, models, and logs	256 GB SSD/ 1 TB SSD
Software		
Frameworks	Salesforce frameworks	Lightning framework (LWC)
Libraries	Additional tools	SLDS, Salesforce Flow, Reports & Dashboards
Development Environment	IDE & Tools	VS Code with salesforce extension
Data		
Data	Source, size, format	Custom objects: • Customer account object • Enterprise account object • Employer account object
