

Code-Layout, Readability and Reusability

Date	29 September 2026
Team ID	SWUID2026318872
Project Name	A CRM Application for the Chai Shop & Co
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Apex code and configuration documentation follow consistent formatting.
2	Proper File Structure	Files and folders are logically organized	Yes	Salesforce metadata, and setup information are stored in organized folders.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Field and variable names clearly identify the stored information
4	Function / Method Names	Functions are descriptively named	Yes	Flow, Apex, and component names use clear names that describe their purpose
5	Code Comments	Inline and block comments explain logic	Yes	project documentation explain the purpose of each component.
6	Modular Design	Code is split into reusable functions/modules	Yes	Features are divided into separate Salesforce objects, flows, picklists, reports for easy maintenance
7	No Redundant Code	Duplicate or unused code is removed	Yes	Global picklists and shared validation rules reduce repeated configuration.
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Validation rules and required fields help prevent incomplete or incorrect records

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Customer Form	Salesforce Lightning Record Page	Customer Acc, Employer Acc, Enterprise Acc	High

2	Customer Details Section	Salesforce Lightning App Builder	Customer and enterprise records	High
3	Item Selection Picklist	Salesforce Global Picklist	Customer Acc, Orders, and Product records	High
4	Payment Mode Picklist	Salesforce Global Picklist	Customer orders and payment records	High
5	Email Notification Flow	Salesforce Flow Builder	Registration, order confirmation, and updates	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	4	Organized salesforce objects, tabs, flows and app components
Readability	4	Clear labels and simple navigation
Reusability	4	Picklists, flows, rules, and reports are reusable
Documentation / Comments	3	Basic documentation is available; more technical details can be added
Overall Score	4/5	Good quality, maintainable project with scope for improvement.
